9. Until 1949, the restricted area of "neuer Garten" was a so-called Soviet culture park. Some of the buildings have since 1949 been converted into reception halls for high-ranking Soviet officers and state officials. The so-called Marmorpalais housed the officers' club, and the Cecilienhof Castle was converted into a guest house. The southern section of the Neuer Garten was turned over to German authorities who plan to build a Pionierpalast (house for the Young Pioneers) there. The southern sector of the area, which was still restricted, was occupied by Russian families and the northern sector by the guard unit. Sentries wore black-bordered crimson epaulets. [REDACTED]

10. On 26 June, the southern section of the Delius Kaserne and the garages situated west of it quartered about 1,000 men most of whom wore black-bordered black epaulets. (1) Three platoons, each of 45 men, marched out of the installation toward Bornstedter Feld, with most of the troops wearing black epaulets, and some wearing red-bordered black epaulets and black-bordered crimson epaulets. An officer and 10 recruits, 8 of whom wore red-bordered black epaulets and 2 black-bordered black epaulets, entered the billeting area. [REDACTED]

25X1C

11. On 26 June, Camp Koenigswald quartered about 200 soldiers who wore black epaulets. About 20 men practiced with two pontoons. [REDACTED]

25X1C

12. On 26 June, it was learned that low wooden sheds, capable of sheltering about 30 motor vehicles, were available in the restricted area between Bertini Strasse, Hoehen Strasse and Grosse Weinmeister Strasse. Ten trucks were seen there. (2) Soldiers observed there wore red-bordered black epaulets. [REDACTED] that only a motor pool was stationed in this restricted area. [REDACTED]

25X1B

25X1C

13. On 13 June, the Luftnachrichten Kaserne in Potsdam-Golm quartered only a guard detail whose personnel wore black epaulets, some of them with signal insignia. [REDACTED]

25X1B

14. The Unteroffizier Schule in Potsdam-Golm, which is about 90 percent destroyed, contained a small supply dump which was surrounded by a wooden fence. Because he had seen gasoline and oil drums there, source believed the installation to be an organizational fuel dump of the unit in the Luftnachrichten Kaserne. Sentries wore black epaulets. headquarters was assigned 4 recruits, and each battery 12 recruits. [REDACTED] According to the kitchen bulletin, the ration strength on 13 June was 118 officers and 1,113 NCOs and EM. On 15 June 1 general, 1 lieutenant [REDACTED] 25X1B

colonel and 1 major arrived at the installation [REDACTED]

25X1B

[REDACTED] The officers alternately inspected the training activity of the trained personnel and that of the recruits. The general addressed all troops in the club at 5 p.m. A sergeant stated that a movement to the troop training grounds was to be expected at the beginning of August and that therefore, requests for furlough must be postponed. (3) [REDACTED] there

25X1A

said that the engineer unit in the southern section of the Delius Kaserne received 70 recruits on 10 June. [REDACTED] The ration strength there was allegedly 82 officers and 855 NCOs and EM. (1) 25X1A

17. On 21 June, the Kavallerie Schule in Krampnitz quartered a guard unit only. Sentries wore red-bordered black epaulets.

25X1C

[REDACTED] 18. A maintenance sheet found at the garbage dump of the Hohenlohe Kaserne on 31 May specified the work that was to be done on 122-mm SP gun / No 18495. It was approved by Captain Sukharev (fmu), deputy company commander for technical affairs, and dated 19 May 1951.

25X1C

Comments.

(1) Since only one engineer regiment is believed to be quartered in the southern section of the Delius Kaserne, the strength figures in paragraph 16 are given more credence than those in paragraph 11.
 (2) The motor vehicle sheds are reported for the first time. They are probably used by the troops in the restricted area on Weinmeister Strasse and the southern sector of the Neue Garten Quarter.
 (3) The arrival of recruits is reported for the first time. Though five boxcars with recruits reportedly left Rathenow for Wildpark on 4 June, it is doubted that these were the recruits who arrived in Potsdam on 8 June.

25X1A

(4) It is possible that the movement of a train of 33 boxcars and 2 flatcars from Wildpark to Wuhnsdorf on 25 June was linked with the transfer. See [REDACTED]

25X1A

25X1B (5)

[REDACTED] Potsdam. The regiment probably went to the Elbe River for summer training. 25X1B

25X1B

[REDACTED] engineer regiment, since troops attending the courses of instruction at the Kriegsschule were probably loaded at the Potsdam railroad station at the same time the engineer regiment was loaded.

(6) Except for the movements mentioned, the report indicates no essential changes in the occupation of the military installations.
